

Faculty Position in Biomedical Science

University of Wisconsin, Madison

The Department of Comparative Biosciences in the School of Veterinary Medicine at the University of Wisconsin-Madison invites applications for a tenure-track faculty position (PVL 87130). Candidates working at levels of biological organization from molecular to organismal will be considered.

Appointment: Assistant or Associate Professor

Qualifications: A Ph.D. or equivalent degree (DVM/MD), and a minimum of two years of postdoctoral experience are required.

Responsibilities: Approximately 70% research, 20% teaching and 10% academic service.

The successful candidate must have demonstrated potential to develop an outstanding, extramurally funded research program. Although the specific research area is open, we seek a biomedical researcher who can develop an independent research program in an area that complements existing strengths of the department that include, but are not limited to: neuroscience, muscle biology, reproductive, developmental or cancer biology, epigenetics or other biological stress responses (such as inflammation or oxidative stress).

Teaching responsibilities include a commitment to teaching excellence and participation in veterinary medical student instruction. Specific assignment will be based on area of expertise and existing needs. Possible courses include Neuroscience, Physiology, Toxicology, Small Animal Anatomy or Pharmacology. Participation in graduate and postdoctoral training is expected.

Application: Applications should include: a *curriculum vitae*, a statement of research interests and goals, a statement of teaching experience and philosophies and three letters of reference. Please send application materials to:

Jyoti Watters, Associate Professor and Search Committee Chair
